

PRODUCT CHANGE NOTICE

PCN Number: 22-0815A

Date Issued: August 15, 2022

Series: 868 product series and the discrete components used in them.

Part Numbers Affected: 868-XX-XXX-XX-XXXXXX, 0868-0-15-20-82-14-11-0, & 1968-X-01-15-00-00-03-0.

Type of Change: Dimensional change not critical to function.

Change will impact: **Form: Yes** **Fit: No** **Function: No**

Description of Change: Increase nominal hole depth from .180" to .185", Increase nominal solder cup length from .130" to .135". All affected connectors and loose pins will transition to the new version as stock is depleted. Both versions may be in stock at Mill-Max and its authorized distributors during transition. The different versions may be used together without any negative impact.

Reason for the Change: Product enhancement to improve manufacturing and visual consistency of soldercup feature.

Effective Date: Current stock estimated to be depleted by 07/31/2024.
