### APPLICATION OF COMPLIANT TAIL PINS

Mill-Max's patented\* precision-machined pins feature compliant tails that are hollow and slotted to conform to a  $1,02 \pm 0,76$  diameter PTH. As the pin is inserted, the slot compresses to fit the PTH, thus avoiding damage (see illustration at left). The pin's tail has fine serrations that form a perfect "gas tight" connection that doesn't require soldering. And since the pin doesn't damage the hole, compliant tail sockets and connectors can be easily replaced.
